

x = Day GPs routinely in

xx = Alternating shift on rolling 2-week basis

This is a guide to show the usual working days of the GPs at Compass House. While the GPs may work on these days, they are sometimes on Duty which means they won't have specific bookable clinics, but instead will oversee the acutely unwell patients who call in on the day. We switch this round to enable all GPs to a fair rotation between bookable clinics and duty sessions.

There may also be times where the GPs are on annual leave, covering the hospital or working at the care home visiting service so may not be in practice on their designated days.
